1. You select EARTHBRAIN as an initial value
2. You can also choose KOMATSU company (if you are invited to construction site of KOMATSU company)
3. If you switch your company, display of top page is changed
e.g.
➢ EARTHBRAIN   : Scene A、Scene B and Scene C
➢ KOMATSU company   : Scene X、Scene Y and Scene Z

- We will release it on the following schedule and content as updates of File Manager。

**Release Schedule : JST 5th, Mar (expected)　19:00～21:00**
*During the release process, the app will be temporarily unavailable.

NO.	Functions	Overview	Detail
1	Folders & Files list	**Function improvement** The created/last updated date was only displayed up to dd/MM/yyyy, but now it is displayed up to dd/MM/yyyy H:mm.	Please refer to the explanation on the following page.
2	Behavior on error	**Bug fix** When a 404/500 error occurs, the problem that the screen cannot be transitioned even if the menu tab (e.g., the site) is pressed is solved.	Please refer to the explanation on the following page.
3	Uploading	**Bug fix** Fixed an issue that prevented large files from being uploaded for about 2 hours after the system was restarted (at the time of release).	As shown on the left.

No1
The created/last updated date was only displayed up to yyyy/MM/dd, but now it is displayed up to yyyy/MM/dd H:mm.
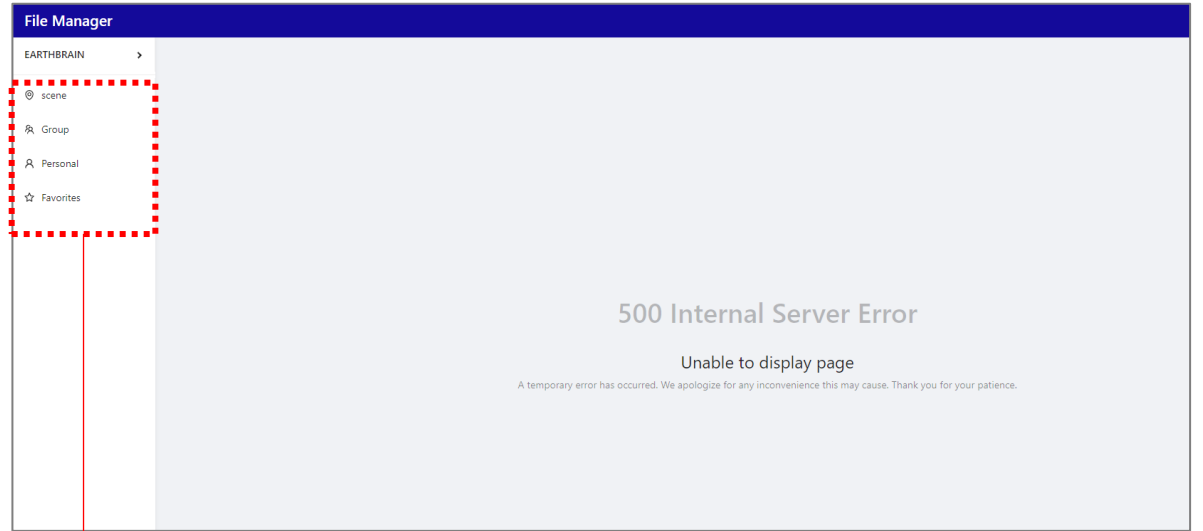

Folder & File Details

- "H:mm" is now displayed on Created and Last Updated area
- Replace the word from "Created Date" to "Created"

No2
When a 404/500 error occurs, the problem that the screen cannot be transitioned even if the menu tab (e.g., Scene) is pressed is solved.

It is now possible to transition to another page in the status of the 404/500 error screen.
