Release Item No.1

No.1

You can now check the progress of processing such as point cloud editing. You can check it from the processing status button in the upper right corner of the screen. Each operation is displayed with one of the following statuses: Pending, Processing, Completed, or Error.

No.2
The color when snapping on has been changed to light blue to improve visibility.

No.3

The specifications of the 3D rotation operation have been changed.
Ctrl key + click now rotates 3D with the center of the point cloud as the center of rotation, and wheel click with the mouse pointer tip as the center of rotation.
