

Smart Construction Groupware Release Notes 2026.8.4

EARTHBRAIN

- Smart Construction Groupware will be updated and released according to the schedule and details below.

Release work date/time: Japan time, August 4 (Tue) (planned) 13:00-14:00

NO.	Function	Overview	Details
1	Download / Upload	This is a feature improvement. We have improved the method used when downloading files from Groupware and when uploading files, so that errors and interruptions are less likely to occur.	As shown on the left.
2	AI Features	This is a feature improvement. In the "AI Report" function, information from files uploaded to a site is now also collected and organized into the report.	As shown on the left.
